

**Purchase a Fluke VT04 Visual Infrared Thermometer and Receive FREE:
A Reed ST-123 Moisture Detector and a Reed ST-922 AC/DC Multimeter with Temperature!**

Fluke VT04 Visual Infrared Thermometer:

With the Fluke VT04 Visual Infrared Thermometer you can detect and capture issues instantaneously with digital and thermal blended images, pinpoint hot and cold spots with temperature markers, and document problems efficiently with SmartView® software.

- Utilizes hyper-thin pyroelectric array technology
- Point and shoot, focus-free design
- Get the complete picture by saving a blended infrared and visual image with every image capture instantly
- A blended image captures a center point temperature measurement and hot and cold markers all at once, allowing you to pinpoint the exact location of the potential problems
- Includes SmartView® professional analysis and reporting software that allows the user to store up to 10,000 images per GB on the included 4 GB SD card

REED Instruments ST-922 AC/DC Multimeter with Temperature:

- 0.5% basic DC accuracy
- 4,000-count resolution
- Diode check and continuity test
- Data hold function
- Auto ranging and auto power off
- Double molded plastic housing
- EN61010-1 Cat. III 600V
- UL approved
- Includes test leads, soft carrying case and 9V battery

REED Instruments ST-123 Moisture Detector:

- Measures the moisture content of sawn timber (also cardboard and paper) and hardened materials like plaster, concrete and mortar
- Average adjustment for European wood based on a wood temperature of 20°C
- Electrical resistance measuring principle
- Impact-proof plastic housing
- Auto power-off
- 8mm long integrated electrode is replaceable
